Huizhou Noxia Technology Co., Ltd

惠州乐笑科技有限公司

ABOUT US

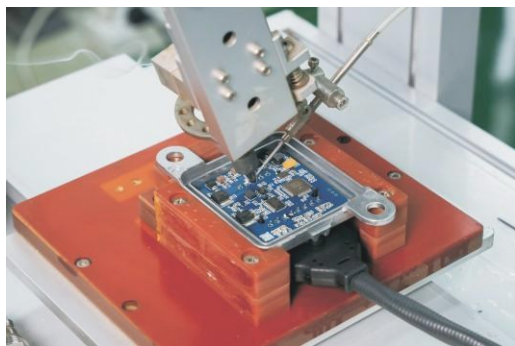

Huizhou Noxia Technology Co., Ltd. was established in 2017, is a high-tech enterprise specializing in diesel vehicle after-treatment systems. The company focuses on the research, development, production, and sales of NOx sensors, aiming to provide advanced technical solutions for the global automotive industry. Noxia currently has a production facility of over 8,000 square meters. and employs over 100 staff, with 8 to 10 dedicated to R&D. Our manufacturing processes encompass a complete workflow, from chip selection and SMT technology to final assembly and testing. We have passed ISO9001 and CE certification.

As a leading NOx sensor manufacturer, the company leverages its advanced craftsmanship and technical expertise to export products to Europe, the United Kingdom, North America, South America, Australia, New Zealand, Southeast Asia, and so on, becoming a preferred supplier in this niche industry. Our NOx sensors are widely used in diesel vehicle after-treatment systems, helping clients improve emissions control, optimize vehicle performance, and meet stringent environmental standards.

The company upholds a "Quality First, Customer Foremost" business philosophy, strictly adhering to quality management systems. All products undergo rigorous multi-step inspections and tests to ensure stable operation and high reliability. We are committed to a customer-centered approach, continuously enhancing product quality and service to deliver an exceptional product experience and comprehensive technical support.

Our mission is to establish "Noxia" as a premier brand in the NOx sensor industry and to contribute actively to the safe development of the global automotive industry and environmental protection.
